

Town of Lovell  
SELECTMENS MINUTES

3-09-2010

Present, Bob Drew, John Ramsden, also present Larry Fox, Scott Gardiner, Scott Davidson, Jason Wentworth, Steve and Lynn Korth,

1. We welcomed John Ramsden to the board of selectmen and discussed some of the issues we are currently dealing with.
2. We discussed moving the debris and shingle trailer at the transfer station. Larry will handle this.
3. Steve and Lynn Korth came in to discuss the town cutting the sides of the Old Waterford Road to let in the sunlight during the winter. Bob and Larry will meet with the Korth's and their forester to discuss what cutting the town will do. The selectmen also agreed to meet with the Korth's when the snow goes to discuss a drainage issue on their property. Steve and Lynn also informed the selectmen that if the town ever wanted to turn the portion of the Old Waterford road that runs through their property back to dirt they would be in favor of this.
4. The covering was added to the fence at the Cushman Pond dam and looks great.
5. Larry said that he would like to turn a portion of the West Lovell road back to dirt. This would be approximately from Dick King's to the entrance of Frontier Camp.
6. Bob will meet with Buzz Pratt to discuss the septic easement for the Koski lot.
7. Jason Wentworth received a check for a box trailer he sold the town. This will be used to store and haul news papers. This trailer will haul twice as much as the old one.
8. Adjourned 9:30.
