

## Native Aquatic and Wetland Plants in the Kezar Lake Watershed, 2011-2016

Compiled by LIPPC, with assistance from the Maine Volunteer Lake Monitoring Program

Adapted from the "Hydric Plants of Maine Look-up Table" by Keith Williams

**bold** = dominant on Kezar, *italic* = IAP look-alike

V = VLMP database, L = LWRMA data sheets, S = LIPPC steward report

Common Name	Scientific Name & Description	Kezar	Horseshoe	Farrington	Bradley	Heald	Trout	Cushman
<b><u>Aquatic Emergent Plants</u></b>								
<b>Arrowhead</b> (species unidentified)	<a href="#"><i>Sagittaria spp.</i></a>	L, V, S	L, V, S	V, S	V	L, V, S	L, S	V, S
<b>Common arrowhead</b>	<a href="#"><i>Sagittaria latifolia</i></a>	L, V	V		L, V	L, V		L, V
<b>Pickeralweed</b>	<a href="#"><i>Pontederia cordata</i></a>	L, V, S	L, V, S	L, V	L, V	L, V, S	L, S	L, V
<b>American bur-reed</b>	<a href="#"><i>Sparqanium americanum</i></a>	L, V, S	L, V, S	L, V	L, V	L, V, S	L, S	L, V
Narrowleaf bur-reed	<a href="#"><i>Sparqanium emersum</i></a>	L, V	L, V			V		
Creeping spikerush	<a href="#"><i>Eleocharis palustris</i></a>	L	L, V			L, V	L, S	L, V
Bayonet rush	<a href="#"><i>Juncus militaris</i></a>	V	V					
Soft-stemmed bulrush	<a href="#"><i>Schoenoplectus tabernaemontani</i></a>	L, V			L, V			
Torrey's bulrush	<a href="#"><i>Schoenoplectus torreyi</i></a>	L						
Hard-stemmed bulrush	<a href="#"><i>Schoenoplectus acutus</i></a>	L, V						
Pale St. Johnswort	<a href="#"><i>Hypericum ellipticum</i></a>	L				L, V	L, S	L, V
Northern mannagrass (also floating)	<a href="#"><i>Glyceria borealis</i></a>	L, V	L, V			L, V		
Northern St. Johnswort	<a href="#"><i>Hypericum boreale</i></a>	V	L			L, V		
Three-way sedge	<a href="#"><i>Dulichium arundinaceum</i></a>	L, V	L, V, S		L, V	L, V, S	L, S	L, V
River horsetail	<a href="#"><i>Equisetum fluviatile</i></a>	L, V						
Rice cutgrass	<a href="#"><i>Leersia oryzoides</i></a>	L, V	L, V			V	L, S	
Water purslane (also submersed)	<a href="#"><i>Ludwigia palustris</i></a>	L, V	L, V			L, V		L, V
